DATA ANALYTICS|Data Science & Analytics- SQL, Python,
Hypothetical analysis, predictive analysis| Data Modelling
Noida, Uttar Pradesh, India

Summary

Data Analyst with over 2 years of experience in the field of data
science & analytics, accompanied by a bachelor's degree in B.S.C
Computer Science. My professional journey has spanned diverse
sectors like edtech, e-commerce, and IT where I use my skills in
making predictions and hypotheses to make the business profitable.

I am well versed with tools like powerbi and database language SQL.
I have also basic knowledge of MS Office. I excel in Data cleaning,
data processing, data analysis, data visualization, and making
reports. Also, I used insights to solve problems using Microsoft
Excel.

I did my Bachelor of Science & communication in Computer Science,
Physics, and Mathematics 2015 from Dr Bhim Rao Ambedkar
University. I acquired a diploma in Computer application.

Key Skills: Data science, Data analytics, Statistical analysis,
Hypothesis Testing, Predictive Analytics, Problem Solving
Languages: SQL, Python, HTML
Database: Microsoft SQL Server, PostgreSQL, Snowflake, MySQL,
SQLite
Other: Excel, AWS Cloud, Google Cloud, Git, Web Analytics and
Google Analytics.

Also, a Content Creator & Educator with vast experience of more
than 5 years in content writing and SEO. Creating content is my
passion to educate others.
